

Industrial Visit

Industrial visit was planned by Faculty of Engineering & Technology on 22nd September, 2023 to Yamunanagar Engineering Cluster Pvt Ltd., Haryana. The objective of the visit is exposure to real world engineering challenges, familiarization with advanced technologies and networking opportunities. Faculty is delighted to share the overwhelmingly positive feedback received from our students regarding the recent industrial trip. They expressed great satisfaction, happiness, and enthusiasm, emphasizing how the experience has enriched their understanding of concurrent engineering practices across various domains in an industry setting. The visit provided them with invaluable insights into collaborative problem-solving approaches for common manufacturing challenges.
